VESTIDO DE PRIMAVERA

What Are You Wearing Today? 🧤🩳

Aprende a describir tu ropa con el Present Continuous:

❄️ Cold Winter Weather

❄️ "It is freezing today! **I'm wearing a woolly hat and a heavy coat.**"

🧣 "My friend Lucas **is wearing a red scarf and warm gloves.**"

🌧️ "When it rains, **we are wearing waterproof boots and raincoats.**"

🌞 Sunny Summer Days

🌞 "It is sunny and hot! **I'm wearing a cotton T-shirt and shorts.**"

🕶️ "Sara **is wearing sunglasses and comfortable sandals.**"

🏖️ "At the beach, **we are wearing swimsuits and sun caps.**"

The 5 Vertebrate Groups! 🦴🦁🦅

Animales que tienen columna vertebral y esqueleto interno:

Mammals

MAMÍFEROS

Have fur, breathe with lungs, viviparous (drink milk).

Birds

AVES

Have feathers, two wings, a beak, lay eggs.

Reptiles

REPTILES

Have dry scales, breathe with lungs, oviparous.

Amphibians

ANFIBIOS

Moist skin, live in water & land, undergo metamorphosis.

Fish

PECES

Have fins, aquatic scales, breathe with gills.

Vertebrates vs Invertebrates! 🦴 vs 🪱

La gran división del reino animal:

VERTEBRATES

ANIMALES VERTEBRADOS (CON ESQUELETO INTERNO)

Poseen columna vertebral y huesos que sostienen su cuerpo y protegen los órganos vitales.

Examples: Humans, dogs, eagles, lizards, frogs, and tuna fish.

INVERTEBRATES

ANIMALES INVERTEBRADOS (SIN COLUMNA VERTEBRAL)

No tienen esqueleto interno con huesos. Algunos tienen caparazón externo (concha, exoesqueleto). ¡Son el grupo más numeroso!

Examples: Butterflies, ants, spiders, octopuses, snails, and jellyfish.

YOU MASTERED SEASONS & ANIMAL BIOLOGY!

¡Ahora sabes usar **I'm wearing** para cualquier clima y clasificar con precisión a todos los vertebrados e invertebrados!
