🏫 UNIT 1 • OUR SCHOOL & THE LOCOMOTOR SYSTEM

GREAT SCHOOLS & BONES & MUSCLES!

School Places, Present Questions & How the Skeleton and Muscles Work

(Lugares del colegio, preguntas con Where y el funcionamiento del aparato locomotor)

- 🏫 **School Places**
- 🦴 **Skeleton & Bones**
- 💪 **Muscles in Action**

ACTIVE HEROES!

Move, learn and discover your body!

1. School Places • Lugares del Colegio

Vocabulario y preguntas de localización: "Where is Toby? He's in the..."

Library
BIBLIOTECA

Gym
GIMNASIO

Playground
PATIO

Dining room
COMEDOR

Computer room
AULA DE INFORMÁTICA

Corridor
PASILLO

Music room
AULA DE MÚSICA

Toilet
ASEOS

2. The Skeleton • El Esqueleto Humano

Más de 200 huesos que dan forma y protegen nuestros órganos vitales

Skull / Cranium

CRÁNEO

Hard helmet bone that shields the brain.

Ribs

COSTILLAS

Cage bones protecting the heart and lungs.

Spine

COLUMNA VERTEBRAL

Central column holding our body upright.

Femur

FÉMUR (THIGH BONE)

The longest and strongest bone in the body!

3. Muscles & Power • Los Músculos

Músculos elásticos que se contraen y relajan para mover los huesos

💪 Biceps & Triceps

MÚSCULOS DEL BRAZO

When your biceps contract, your arm bends at the elbow. When triceps contract, your arm straightens!

🏋️ Abdominals

ABDOMINALES Y PECTORALES

Support your torso and allow you to bend forward and twist safely during gymnastics.

🏃 Calves & Quadriceps

GEMELOS Y CUÁDRICEPS

Strong leg muscles that contract to propel you into a sprint and jump over hurdles in the gym!

4. Locomotor Challenge • Preguntas de Clase

❓ Q1

Where do you read books quietly?

Answer: IN THE LIBRARY 📚

❓ Q2

Which bone protects your brain?

Answer: SKULL / CRANIUM 💀

❓ Q3

What is the longest bone?

Answer: FEMUR 🦴
